Signs of Minnesota:

Glimpses into the Minnesota Deaf Experience

A DVD benefitting MADC and MRID

Created by Doug Bowen-Bailey of Digiterp Communications, this DVD will make its premiere at the MRID Fall Conference. Featuring over twenty signers, it contains a glimpse into the riches that the Deaf community in Minnesota has to offer. Video includes autobiographical stories, humerous anecdotes, performances, and much more. Captioned English translations will also be available as subtitles.

This DVD is being sold by both the Minnesota Association of Deaf Citizens (MADC) and the Minnesota Registry of Interpreters for the Deaf (MRID). All proceeds from the sale of this project will go to further their efforts in making Minnesota a more accessible state for all its citizens and a better place for interpreters to work. Catch this glimpse of the Minnesota Deaf experience and support MADC and MRID at the same time.

To order your copy, either plan on picking one up at an MADC event or send in the order form below.
